**MONTHLY TREATMENT**

There is One Life, that Life is God, that Life is perfect and that Life is my life now. Spirit is forever creating something new out of Itself and because I individualize Spirit, that same creative process is operating in me right now.

Embracing a new way of thinking I center my attention on all that is good, beautiful and true. My prayers reflect these thoughts and affirm that which I wish to bring into my life. Having embraced this new consciousness, I joyously watch as my highest and best desires come into expression.

I release any negative patterns of thought and feeling that would block my good. I am open and receptive to this good and use my new way of thinking and feeling to achieve a greater experience of life.

And so it is.

*Michael Sternlieb*

**MEDITATION SONG**

**Oh What A Light! (Words and Music by Dennis Merritt Jones)**

This is the moment; all the world comes together as one,  
In the light–  
Oh what a light!  
So let your voices ring, in peace and joy we sing –  
We see the light, for we *are* the light.

**TREATMENT AT THE OFFERING**

The One Life Divine is always operating in, through and as me. This Life is an expression of total love and givingness. This Perfect Love consecrates my gift as it goes forth to heal, to bless and to prosper all in my world. It is the evidence of my faith and conviction. It does its good and perfect work, and returns to me many times multiplied. And so it is.
